

SIMPLY BOTS

SD FX FUND

SD FX Fund

Take advantage of the Forex market volatility using AI technology to produce a Target Net return of 4% per month without the need to employ a personal trader or having prior knowledge of the forex markets.

Theme

Using the latest AI trading technology that regularly generates over 1000 trades per day. This in turn helps achieve the highest returns possible for our clients.

Fund Management Team

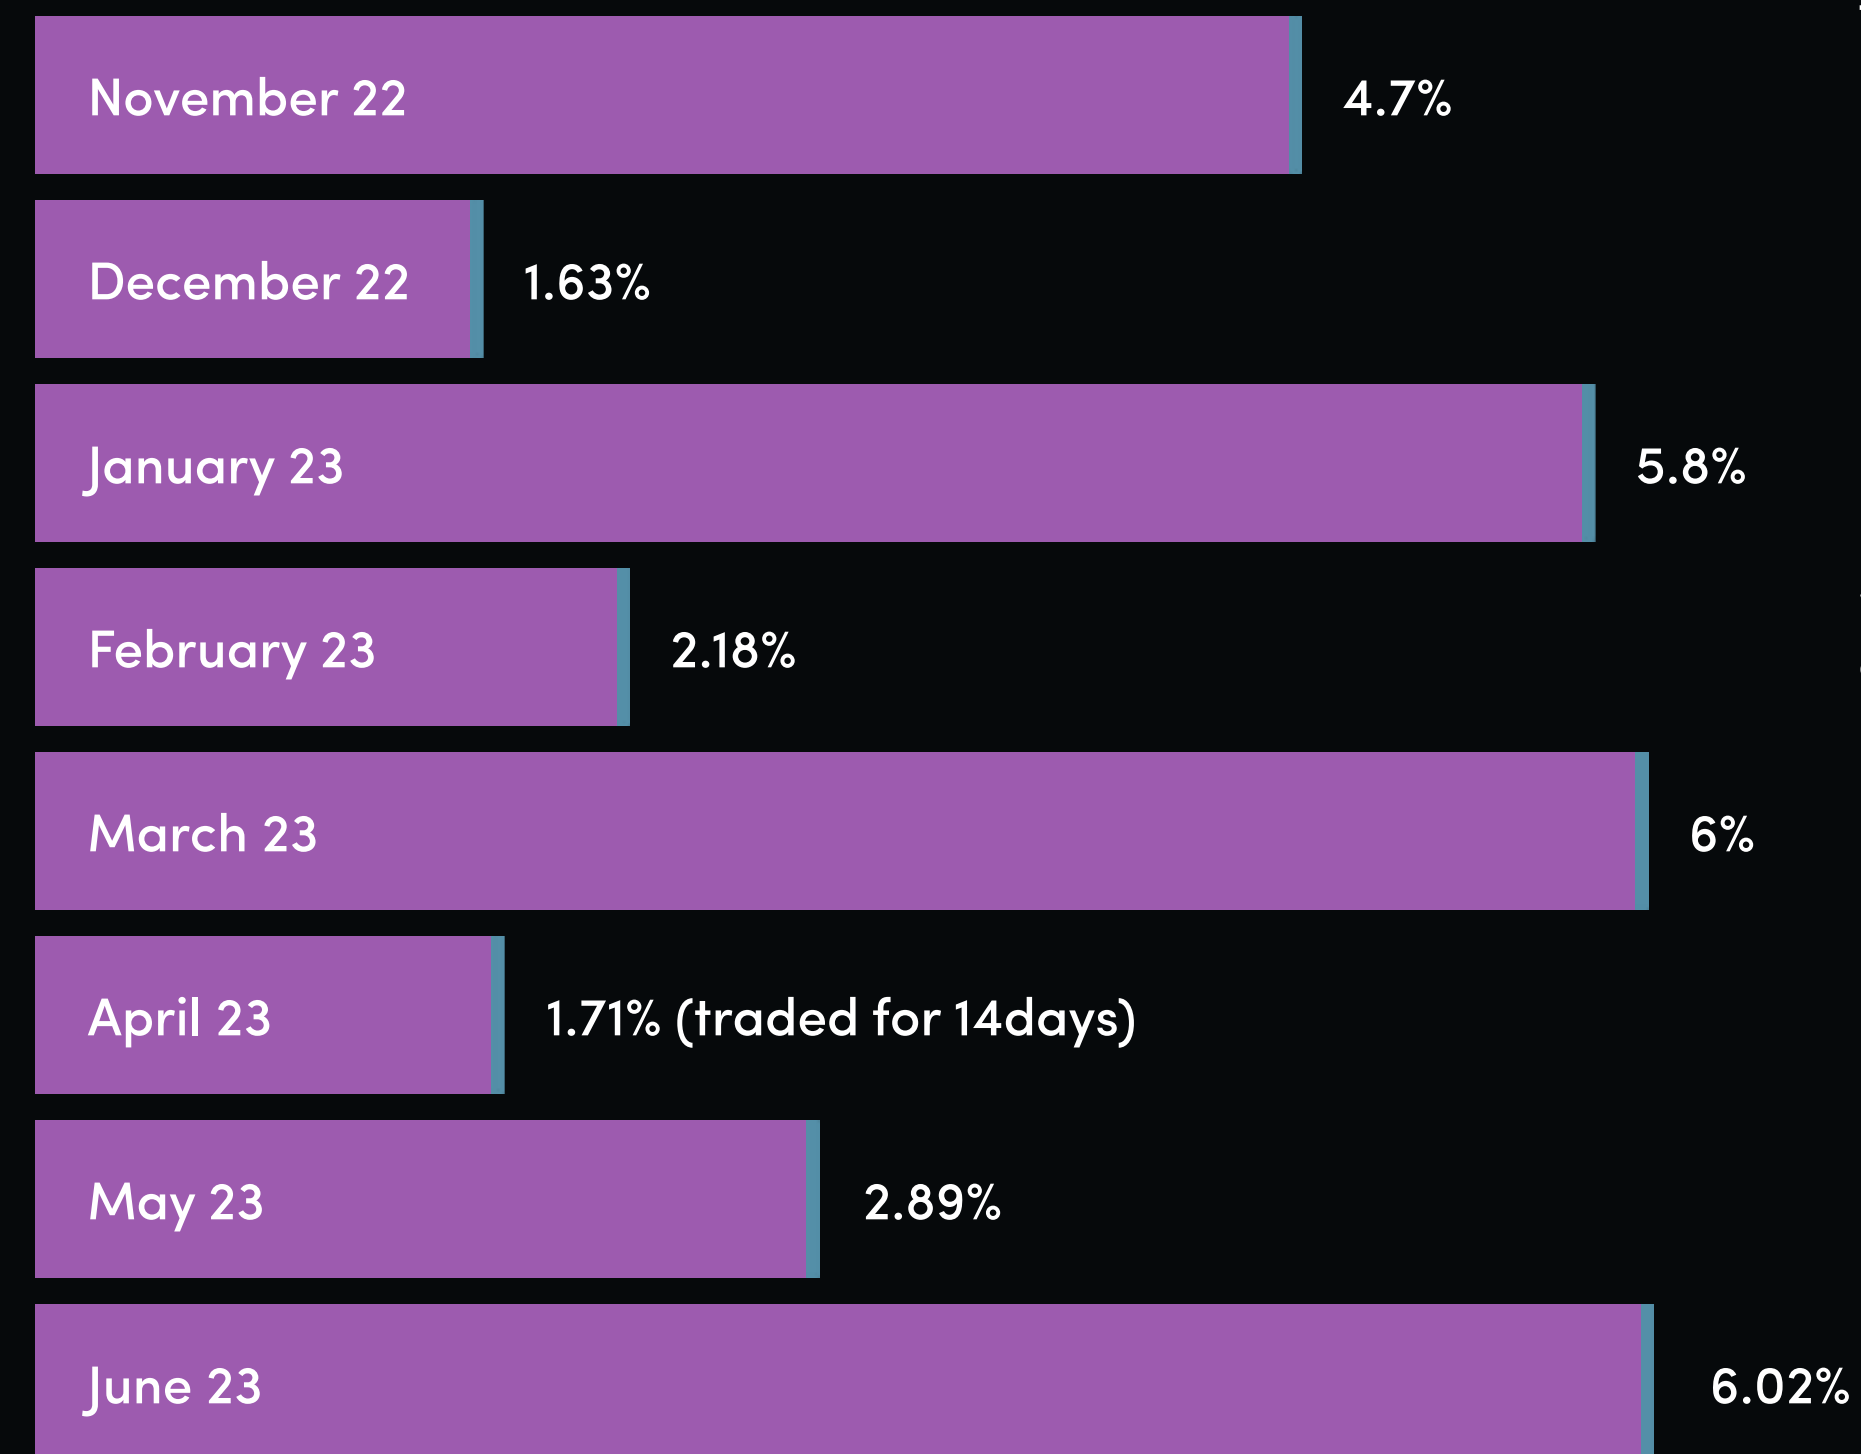

This is overseen by our highly experienced team. The team consists of specialists in both the Fintech and Forex sector.

Using AI provides comfort to clients looking to diversify earning potential in a lower stress trading environment.

Risk Management

This is a vital part of our strategy development process. As part of our responsibility to our clients we place great emphasis on this crucial component to ensure success in our trades. We've built into our AI technology a robust risk management as part of all our strategies.

SD FX Fund 2022-23 Performance

**This investment is available to high networth/
sophisticated investors only.**

Your capital is at risk and your investments are not covered by any Financial Services Compensation Scheme.

FX is a high risk investment and although this product is targeting lower returns - please be aware that ALL your capital can be at risk. WE USE A RISK MANAGEMENT STRATEGY, WE DO NOT USE A STOP LOSS. Although, we feel this is a more robust protection for your investment - you still have the risk of account losses.

Trading Currency Pairs

The returns were made using Euro/USD pairings.

2023 Returns

Previous returns are no indication of future returns. Forex is a high risk investment and you should not invest more money than you can afford to lose.
